

**Please read this first,
No condemnation.**

There is not one sin that is not associated with hidden emotions. Therefore, when someone speaks against sin emotions are easily churned. Nonetheless, sin must be address for what it is; an act against God's law. Sin is deadly and like a cancer and requires appropriate measures to bring healing. While these measures may be difficult the physician is always gentle and deeply concerned for the welfare of HIS patient. Therefore, Miracle You Ministries promises to work very hard to help without harming. We didn't say some treatment's won't hurt. they may hurt, but we promise, they will never harm. Expect information, care, and concern. My only goal is that you too can find fulfillment and peace in Christ Jesus.
